MEET THE VERY HELPFUL DESK

Courtney (on the left) and Eva – the shy ones who didn't make the last newsletter! We cornered them at the Kelowna Legal Support Staff dinner and forced them to pose for a photo! As our econveyance™ users know, these are the two that really run our very helpful desk.

CONVEYANCING TIPS

In a perfect world, a registered Priority Agreement is released by the LTO examiner when a release of the charge to which it relates is filed. In our less than perfect world however, some of us have taken to including reference to the Priority Agreement in section 1 of the discharge document we are preparing. Now that a paper discharge can be filed by attaching it to an EFS Form 17 Cancellation of Charge, reference may still be made to a related Priority Agreement by putting the appropriate wording in Section 1 of the EFS Form 17. Appropriate wording may be “merge priority agreement CA1234” or “release priority agreement CA1234”.

ON THE ROAD

As many of our readers are already aware, we've been traveling the Province hosting EFS – econveyance™ information seminars jointly with the Land Title & Survey Authority. These seminars provide conveyancers, lawyers and notaries with information about getting started with EFS and

econveyance™. Traveling with us has been Darcy Hammett from the LTSA as well as Brett Horton, from Emergis. Here we are in Cranbrook, left to right are Catie, Brett Horton, Darcy Hammett and Marci.

Attendance at the seminar can be listed as up to two hours of continuing education on lawyer's annual reports to the Law Society.

Email us at info@econveyance.com if you would like to see one of these seminars in your area. Also, watch the BC OnLine home page for upcoming seminar announcements.

ENVIRONMENTAL CORNER

At econveyance™ our environment matters to us. It is one of the reasons we strive to make it easier for our users to be paperless. We believe that one person can make a difference and that every small step taken towards saving our environment matters! For this reason, we have added an Environmental Corner to our newsletter. We hope to use it as a way of sharing tips for the small ways that each of us, as individuals, can make a difference. Please feel free to forward any tips you may have.

Replace your regular light bulbs with energy efficient ones. If every Canadian household replaced just one ordinary 60 watt bulb with an energy efficient light bulb, the energy saved would be enough to power a city of 1.5 million people. In terms of oil not burned, or greenhouse gases not exhausted into the atmosphere, one bulb is equivalent to taking 1.3 million cars off the roads.

Putting our own energy to good use. OneMove OnLine Systems Inc. has joined the Adopt-a-Road program and on Monday, April 30, 2007 all of us at the very helpful desk undertook the task of picking

up litter from a 1.7 km stretch of road in Vernon and we have the pictures to prove it!!

NEW STUFF

- **Reporting** – econveyance™ users now have the ability to track referrals, generate reports and export the report information to their local system in several different formats. Reporting also gives our users the ability to generate reports for internal tracking, such as how many files close on a certain date, how many purchase files did the firm complete last year etc. The reports can be used for administration as well as for marketing purposes.
- **Easily Act for Both Sides** – In order to simplify the process for those of our users who act on both sides of a buy/sell file or both sides of a refinance file, we have added an option to the *New File* screen. When opening a new Buyer file for example, our users see a tick box at the bottom of the *New File for Buyer* screen labeled *Acting for Seller Also*. If they tick this box, their firm name, the lawyer and conveyancer names; and their file number will automatically be logged on the file as both the Buyer and Seller representative.
